Frontend Software Engineer

I am passionate about creating simple, modern, and intuitive user experiences. With experience developing high-performance single page applications, I have increased user engagement by up to 30% in 6 months, while also increasing frontend test unit coverage from 0% - 70% and creating detail documentation for scalability and maintainability.

WORK EXPERIENCE

Frontend Software Engineer

09/2022 - 08/2023

Orange County Fire Authority • Irvine, California, United States • Hybrid

- In 6 months, developed and launched a modern agile scheduling application, working with design and engineering teams.
- Optimized performance, re-usability, and scalability of Angular features and decreased load times by 25%.
- Within 6 months, increased frontend test coverage from 0% to 70%.
- Participated in bi-weekly code reviews in order to gain and give feedback on working code implementations.
- Within 3 months, led user product experience, increasing user engagement during app migrations.

Front End Developer

11/2021 - 09/2022

InvestCloud, Inc. • United States • Remote

- Increased user engagement by 30% by delivering custom frontend features to meet specific client needs.
- Worked with the Design and Management to implement new features, and consult on project scope.
- Improved product quality by collaborating with cross-functional teams to develop and execute unit test plans and cases.
- In 6 months, led frontend development of new investment portfolio sales product from design to launch.
- Negotiated new project timelines, balancing the user experience with engineering constraints.

EDUCATION

Continuing Education in Computer Science

University of Massachusetts Dartmouth • Online • GPA: 4.0

08/2023 - 05/2024

Courses: C Programming, Object Oriented Programming w/ Java, Data Structures & Algorithms, Computer Systems

Certificate in Full Stack Software Development

UC Irvine

08/2021 - 10/2021

Skills: React.js, Express.js, Node.js, MongoDB

Bachelor of Science in Interdisciplinary Studies (Business & Philosophy)

Liberty University

08/2016 - 05/2019

SKILLS

Software Development, React.js, TypeScript, JavaScript, HTML, CSS, Java, Node.js, Data Structures, Algorithm Analysis, Functional Programming, RESTful API, Problem Solving
