SKILLS

Backend | *Java · C++ · Python · SQL · MongoDB · API Dev*
Frontend | *Typescript/Javascript · HTML · CSS · React · Next · Angular*
Tools | *VS Code · Git · GitHub · AWS Amplify · TFS · Salesforce Dashboards · Client Relationship Management Software · Excel*
Soft Skills | *Excellent Communication · Client Management · Organization · Agile · Team Player · Fast Learner · Flexible*

EXPERIENCE

O.C. Fire Authority | *Angular, Typescript, SQL, Debugging, Communication*

Frontend Developer | SEP. 2022 - AUG. 2023 • Irvine, CA

Agile Inspector Scheduling Calendar

- Built an agile drag & drop scheduling calendar for fire inspections
- Utilized FullcalendarAPI, internal design, and Angular to create the UI
- Created SQL query to integrate four teams' data into one source
- Communicated with internal clients to understand needs for the feature

Client Facing Scheduling App

- Created an automated scheduling app for public use
- Built an algorithm that maximized inspectors schedule capacity

InvestCloud, Inc. | *Javascript, HTML, CSS, Unit Testing, L2 Support*

Jr. Frontend Developer | NOV. 2021 - SEP. 2022 • Remote

- Worked in a pod team to create three Wealth Management web products
- Developed & published frontend apps in bi-weekly sprint cycles
- Resolved prior bugs found in our code while working on new features

EDUCATION

University of Massachusetts - Dartmouth
Master of Science, Computer Science (Machine Learning)

AUGUST 2023 - DECEMBER 2025 • GPA: 4.0

Liberty University
Bachelor of Science, Interdisciplinary Studies

MAY 2019

CS Coursework: C++ Programming, Data Structures, Information Systems

COURSEWORK

C/C++ Programming
OO Programming w/ Java
Data Structures & Algorithms
Computer Systems
Database Design
Advanced Machine Learning

CERTIFICATIONS

Web/Mobile Development
UC Irvine | Oct. 2021
Three month immersive program, learning full stack web application development in the MERN Stack
